

Technical Rider and Stage Plan

Stage & PA

The minimum size of the stage for this formation is 6 x 4m.

We assume that there is a well sized PA system provided for the concert room. The band needs at least 2 monitors and at least 2 different monitor channels. In small rooms, we can also play acoustically without any PA.

Backline

The backline needs depend on the contract. If the band is travelling without backline, the following list of instruments has to be provided by the venue:

Piano

An acoustic grand piano that is tuned and in perfect shape (Yamaha or Steinway preferred)

Alternative: Tuned Upright Piano or Fender Rhodes Piano including Fender Amp. No digital Stage Piano!

+ 1 piano stool

Bass

1 Bass Amp with speaker (Gallien & Krüger MB150SIII or similar preferred)

Drums

Regular Jazz set in the following sizes:

Bass Drum: 18" x 14" or 20" x 14"

Racktom: 12" x 8"

Floortom: 14" x 14" with legs, not suspended

Snare Drum: 14" x 5" or deeper (5.5"/6"/6.5"/7")

but no Piccolo Snare, wooden shell if possible

Accessories: Snare Stand, HiHat Stand, Bass Drum Pedal (Pearl, Yamaha, DW), 3 Cymbal Stands (one with boom arm), Holder for Racktom mounted on Bass Drum, Adjustable Drum Throne, solid and noise-free!

Heads No double ply Drum heads on any of the drums, only regular single ply heads such as Remo Ambassador, Remo Renaissance and so on (No Pinstripes, Powerstrokes and all that kind of stuff!!!)

Also on the Bass Drum only single ply heads on both sides. No objects inside the Bass Drum, no hole in front head.
The Head on the Snare must be coated, so it can also be played with brushes.

+ 1 drum carpet and 1 drum stool

Other

5 music stands
microphone stands for drums and horns

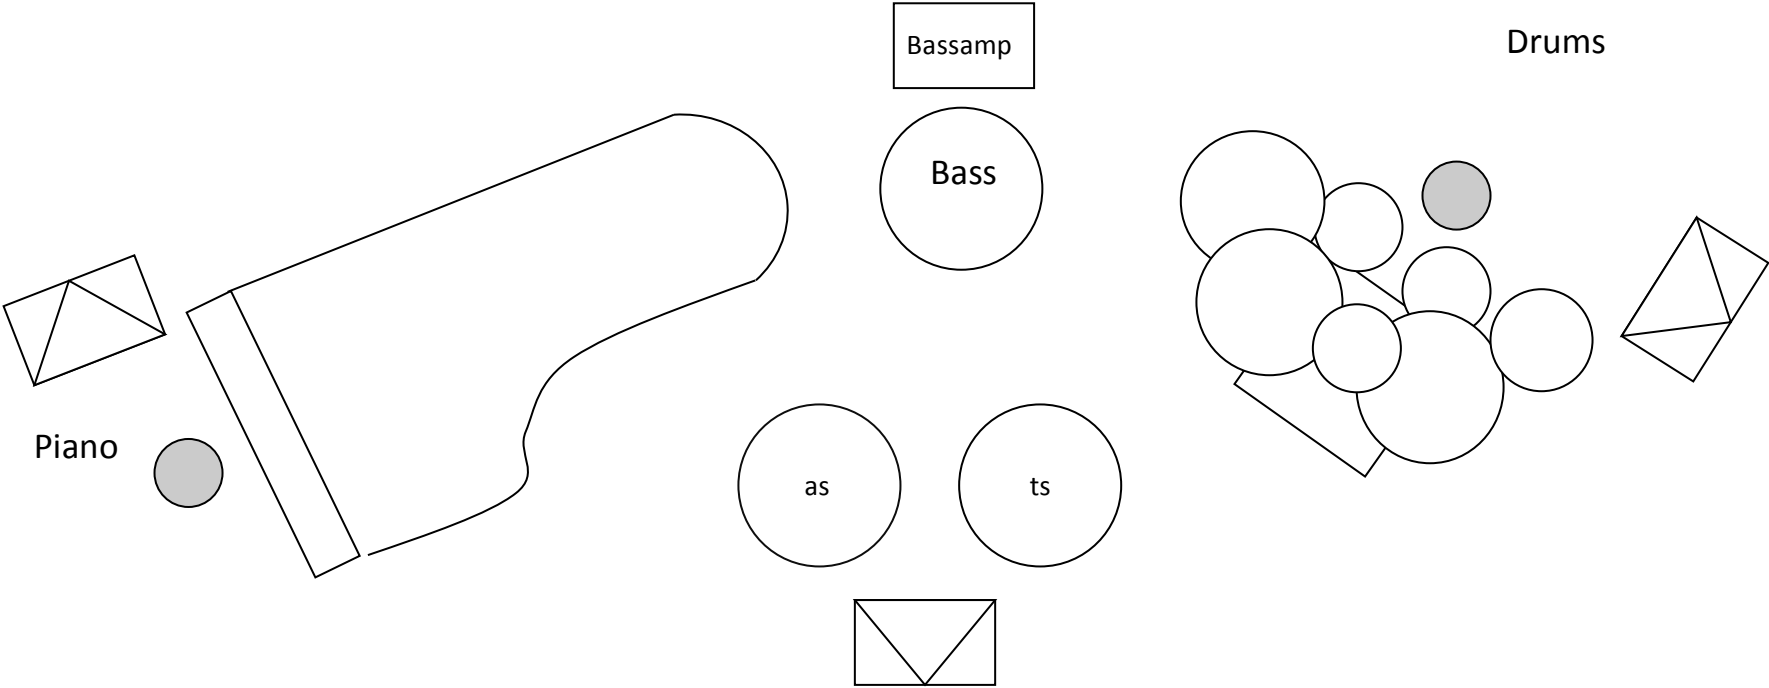

Input List

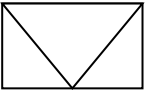

- 1 Bass drum
- 2 Snare drum
- 3 Overhead Left
- 4 Overhead Right
- 5 Bass DI
- 6 Bass Mic (DPA 4099 brought by the band, needs phantom power)
- 7 Piano Mic 1
- 8 Piano Mic 2
- 9 Alto Sax
- 10 Tenor Sax

Preferred Microphones

Our horns prefer Ribbon Mics for Alto Sax and Tenor Sax
